Summary

A passionate and performance-driven frontend web developer with a B.Tech in Computer Science from Parul University. Skilled in building responsive, user-friendly interfaces using HTML, CSS, JavaScript, and React.js, with foundational knowledge of Node.js, Express.js, and MongoDB. Experienced in developing creative and scalable web solutions, integrating modern UI/UX principles. Proficient in Microsoft Office tools (Excel, Word, PowerPoint) for effective data analysis and reporting. Continuously learning and applying the latest frontend technologies to deliver impactful and production-ready web applications.

Education

B.Tech in Computer Science & Engineering
Parul University
September 2021 – March 2025
CGPA: 8.15

Technical Skills

- **Frontend Development:** HTML, CSS, JavaScript, React.js
- **Tools & Platforms :** Git, GitHub, VS Code
- **Backend Development:** Node.js, Express.js, MongoDB
- **Office Tools :** MS Excel, MS Word, MS PowerPoint

Projects

- **Portfolio Website** [Link]

  - Developed a fully responsive and modern personal portfolio using **React.js** and CSS.
  - Showcases personal **skills**, **projects**, and **achievements** with a clean and interactive UI.

- Designed to highlight frontend development expertise through real-world work and user-friendly layout.
- Includes structured sections for **About**, **Projects**, **Skills**, **Contact Form**, and **Resume Download**.
- Optimized for all devices and browsers to ensure smooth navigation and performance.

- **JobElite - Full Stack Job Portal** [Link]

  - Developed using **React.js**, **Node.js**, **Express.js**, and **MongoDB** with **Clerk authentication** and **Tailwind CSS**.
  - Role-based access for **students** and **recruiters**; recruiters can post/manage jobs and process applications.
  - Students can search and apply for jobs, upload resumes, and track application status.
  - After application acceptance, students must take a **30-mark MCQ test** with **tab switch detection**; passing makes them eligible for interviews.
  - Integrated **Sentry** for error tracking and **Postman** for API testing.

- **ShopEase - E Commerce clothing website** [Link]

  - Built a minimalist and responsive e-commerce clothing website using **React.js** and **CSS**, without using any external libraries or backend services.
  - Implemented **product listings** with images, prices, and "Add to Cart" functionality.
  - Developed a basic **login system** (frontend only) to simulate user authentication flow.
  - Designed and managed the shopping **cart system** entirely on the client-side using React state.
  - Focused on a clean, user-friendly UI with smooth navigation and seamless cart interaction.

- **HireSlate – Resume Builder Website** [Link]

  - Developed a modern resume builder web application using **React.js** and **Vite** for fast performance and modular structure.
  - Integrated **Clerk authentication** for secure user login and session management.
  - Implemented **light/dark mode toggle** to enhance user experience and accessibility.
  - Built a dynamic form system that updates the **live resume preview** in real time.
  - Enabled one-click **PDF download** of the resume using jsPDF and html2canvas libraries.

Experience

Web Development Internship
December 2024 – March 2025 at Mamo Technolabs LLP
Certificate Link: `https://github.com/dsr096/cirti/blob/main/cirti.jpg.jpeg?raw=true`

Certifications

Data Analytics with Python
Completed from **NPTEL**
Duration: January 2024 – April 2024
Certificate Link: `https://github.com/dsr096/nptelphoto/blob/main/nptelphoto.jpg?raw=true`
